DR JASON FOX

INTRODUCTION

Dr Jason Fox is a bestselling author, leadership advisor & rogue wizard/philosopher.

Specialising in Pioneering Leadership & Motivation Design.

His clients include the senior leadership teams of Fortune 500 companies, and in 2016 he was named Keynote Speaker of the Year by Professional Speakers Australia.

When not liberating the world from the delusion of progress, Jason partakes in extreme sports such as reading, sun avoidance and coffee snobbery.

DR JASON FOX

BIOGRAPHY

They say he plays dice with Loki (badly), that Hermes once gave him a high-five (crisp), that he does coffee with Lady Fortuna on a semi-regular basis, and that Odin's ravens both think his beard is 'nice'. Rumour has it he once sneaked into the Ivory Towers of several arch-wizards, stealing their spell books - only to scatter the magical pages amidst the wind. They call him a wizard, a rogue, and some whisper that he is secretly a field kitsune with three, maybe four tails, and that his skyship - The Cleverness - is actually an allusion.

Actually no one says any of that. Nonetheless Dr Jason Fox is a motivational speaker, bestselling author, leadership advisor & wizard/philosopher of ace repute.

Oft sought after for his fresh perspectives, contemporary philosophies and deep expertise in motivation design, Dr Fox shows forward-thinking leaders around the world how to unlock new progress and pioneer deeper into uncharted territory.

His clients include Fortune 500 companies around the world including Microsoft, HP, Cisco, Oracle and Salesforce, to other multinationals such as Toyota, Beam Suntory, Vodafone, Honda, Sony, Tableau, Gartner, Johnson & Johnson, Xero, HP, Bupa, Red Cross, Bulgari, Pandora, Arup, Aon, PWC, KPMG, The World Tourism Forum and The International Institute of Research (not to mention: financial institutions, universities, telcos, government agencies, insurance companies, software developers, global associations, intergovernmental forums, and so on).

Jason is the bestselling author of *The Game Changer* and *How to Lead a Quest: a handbook for pioneering leaders*. And, while intentionally inept at social media or marketing, his monthly 'museletter' is read by more than 11,000 people around the world.

In addition to serving as a leadership adviser, Dr Fox is also an in-demand keynote speaker who works particularly well with sceptical audiences who have 'seen it all before'. In 2016 he was awarded Keynote Speaker of the Year by Professional Speakers Australia.

Jason lives with an illustrator-veterinarian and a cat called π in an old chocolate factory in Melbourne, Australia. When not liberating the world from poorly designed work, Jason enjoys partaking in extreme sports such as reading, sun-avoidance and coffee snobbery.
